PREFACE

This reference aid identifies the current members--both active (voting) and corresponding (nonvoting)--of the USSR Academy of Sciences. Foreign members of the academy are not included. The members are listed alphabetically. Included for each member is his date of birth, status in the academy, occupation, and year of election. At the end of each identification, the Soviet newspaper source is indicated in parentheses. When two sources are given, the first contains a reference to the member's nomination, the second to his election. Where only one source is given, it refers to the member's election.

On page *i* is a chart listing the members of the Presidium of the USSR Academy of Sciences.
